Commission Secretary Dortch:

The State of Indiana has an excellent Telephone Privacy law which protects **us** from telecommunicators of all kinds. I urge you to adopt similar rules as to NOT allow calls. It is just wonderful not to be bothered with the calls. My sister lives in Maryland and my parents in Arkansas and while visiting both homes, the calls were just unbelievable. They had a hard time believing how good it was in Indiana. Don't let the big companies win this - be for the people.

Sincerely,

Patsy R. Borgstadt
